Stephen Barry is a wonderful photographer, with amazing talent. He worked very closely with us through our engagement session and our wedding weekend. He was and is, very caring and warm. He made sure he got the shots we wanted, along with some very beautiful and creative shots we never would have dreamed of. I cannot say enough good things about him, his assistant, his wife and the quality of his work.

I absolutely love all my pictures! Stephen Barry really portrayed the day in a truly beautiful and memorable way. The best part is seeing the proofs and remembering all the small details that he captured.

Steve is by far one of the best photographers in Pittsburgh. His professionalism both before and during the event is very obvious. His pictures are exceptional and he truly is able to capture the feeling of the day through his series of pictures. He is extremely proficient at capturing all of the details of your day. We would recommend him to anybody in a heartbeat!

Stephen Barry Photography is a highly professional studio that I would recommend without question. After putting so much time and effort into the planning of our wedding, we now have gorgeous pictures that capture all of the little details, special moments, and emotions of the day. During the day of the wedding Stephen and his staff were unobtrusive yet always got the shots they needed. This level of service did not end after the wedding. During the album design process Stephen and Barbara Barry invested a lot of time to ensure that the album was exactly what we wanted. They offer truly beautiful products and our album will be our most treasured keepsake from

the wedding. The Barry's were a pleasure to work with and have our highest recommendation. Matthew and Emily Gouwens

We feel so blessed to have had Steve as our wedding photographer! He not only made us feel completely comfortable and kept us smiling; our wedding pictures truly reflect our personalities and our relationship! We have the most amazing wedding photos and are always getting compliments on them from our friends and family, and those who could not be with us on our wedding day have told us that looking at our photos makes them feel as if they were right there in the middle of the celebration! Most importantly, every time we look at our wedding pictures we smile uncontrollably; it's like reliving our day all over again!

Stephen and Barb made us feel comfortable right from the very start. I did not feel like they were trying to sell me, rather work with me. They took the time to understand what we were looking for and help us decide on the package that was right for us. I had met with so many photographers since the pictures were a major concern of mine and I knew as soon as I met with the Barry's that they were the ones. Now that it is all over I look at my pictures I realize that we had the perfect day and the perfect pictures to remember it by. All this and I haven't even seen my album yet! You can't go wrong with Stephen Barry!
